shownedge is good or evil depends or the character of its possession. Education is not knowledge, but development, its end is character. The work of public school should be the intellectual development, not simply the giving one to the knowledge. The aims of the present religious exercises are set down as follows:

1. The Bible is so intimately associated with the studies.

2. This being a Christian country, the basis of Christianity should be a part of the National school teaching.

3. "From the scriptures alone ardrawn necessary sanctions of laws for morality.

Manufacturers of varnish have long almed at tarning out a solution that, among other requisites, would dry aquickly.

It, The desirability of this quality has just been exemplified in a Now Jersey village. Last week the church of the village was positized and the interior was varnished. As the work was done early in the week, the state were supposed to be dry by Sunday. When the members of the congregation sat down the varnish belief bright and hard. This appearance, however, proved densive, for after the worshippers had been seated a short time the congregation at the work of the worshippers had been seated a short time the said when a charge when the varnish and when an extra size of the worshippers had been seated a short time the garment from the seat as to remove a precious plaster. The harm done to clothing was considerable, and the congregation has become critical and districtful on the subject of varnishes.
